

# TRAINING CENTRE FOR INDIVIDUALS WITH LEARNING DISABILITIES

## **“A LITTLE KINDNESS GOES A LONG WAY”. CARING FOR SPECIAL INDIVIDUALS WITH LEARNING DISABILITIES**

20TH MAY 2023

### PURPOSE

Ten FBF academic staff and two students were involved in this activity to provide encouragement, motivation, love, care and support to the mentally challenged individuals, so that they don't give up and know that the society cares for them. This can be achieved via 'motivational hand-made' cards and 'interaction day' between staff and these individuals. There are thirty five special individuals in the centre.

### FINANCIAL SUPPORT

To ease the financial and operational burden of the training centre (non-profit organisation) that focuses on equipping useful skills to these mentally challenged individuals

The members had provided educational material for them to sustain the training centre, so the centre can continue training mentally challenged individuals with the life skills, namely: sewing, drawing, baking, cooking materials
